Completed on time	WARNING – NO CREDIT will be given for late essays. All work is due one week before the last day of class.			
12 Images that tell a story	No coherent theme	Images are related but the theme is not original or interesting.	Images tell a story or offer a fresh view of a subject.	
Use of time during the two weeks of this assignment	I waited until the last few days to do any work. I wasted my time in class.	I did not get started early and I was only working hard during the 2 nd week of the assignment.	I started taking photos in the first week and I used my time well.	
All images tack sharp	No, I did not use a tripod or I did not focus correctly. My images are blurry.	Some but not all photographs are sharp.	Every shot is tack sharp because my camera was steady and I knew how to focus my camera.	
Use of GIMP tools	No, I didn't use photo editing software at all.	I got lucky and some of my photos turned out well.	I made corrections as needed and they enhanced my work.	
Photo technique	My photos look more like snapshots. I did not pay attention to composition.	I have a few good examples of composition and lighting.	ALL of my photos are examples of thoughtful use of light and composition.
